Here are the Wifi addresses at this address. I have not been given the password to use them.

WiFi addresses at this property Which tenants have access? Do you have access?

Hi-Point-General
Hi-Point-Guest
Hi-Point-Residents

This is taken from the Akuvox website. I think the camera functionality is located offsite. An Indoor monitor would allow the tenant to access the cameras that are onsite but from a remote account setup. So while the camera here may not work as Vasquez alleges as resident manager, the Akuvox office is utilizing the cameras here and at a remote location that tenants would access thru the indoor monitor. According to Akuvox, the cameras do work at this location.

The Akuvox E16 is a feature-packed video door phone with facial recognition, access control, temperature, mask detection and more

This 5 inch facial recognition door phone designed for commercial and residential applications. Featuring touchless building access, wireless communication, 1 output relay, Wiegand, RS485, TF card slot, a camera, built-in reader, and a 20,000 face and card capacity on its 7-inch touch screen display, it ensures excellent intercom communication and versatile access control.

Specifications

- **5" Touch Screen**
- **Dual Cameras**
- **Facial Recognition**
- **NFC**
- **RFID**
- **Bluetooth**
- **Expandable for Temperature Detection**
- **IP65**
